ABOUT ME

A highly motivated and proactive professional with strong interpersonal and communication skills, able to perform effectively both independently and within collaborative team environments. Known for a problem-solving mindset and a passion for continuous learning, I consistently seek opportunities to expand my technical and professional skill set while delivering high-quality, results-driven solutions that add real value to the organization.

EDUCATION

CTU Training Solutions

Software Development Training 2024

I completed a six-month Software Development training program where I built a strong foundation in object-oriented programming using Java and C#. The training included hands-on development of basic applications, applying core concepts such as variables, control structures, classes, and methods. I also gained practical experience working with SQL databases, including designing tables, writing complex queries, and performing data manipulation. Through this program, I developed a solid understanding of software development principles, debugging techniques, and writing clean, maintainable code.

Lifechoices Academy

Full-stack development bootcamp 2022

I completed a six-month Full-Stack Development coding bootcamp, gaining hands-on experience in building web applications using JavaScript, HTML, Python, and Node.js. The program covered core programming concepts, backend logic, and application structure, strengthening my problem-solving skills and understanding of software development fundamentals.

NorthLink College

Electronic Engineering 2019

I completed Electronic Engineering (Light Current) studies from N1 to N3, with a strong foundation in Logic Systems, Industrial Electronics, Radio Theory, and Mathematics. This background developed my analytical thinking, systems understanding, and problem-solving skills.

WORK EXPERIENCE

Web Developer Intern

Lifechoices Studio

Apr 2022 – Aug 2022

- Designed, developed, and maintained client websites using HTML, CSS, JavaScript, and WordPress, ensuring responsive, user-friendly designs. Customized themes and plugins to meet client requirements, troubleshoot issues, optimize performance, and implement new features. Collaborated with clients to understand project goals and deliver solutions aligned with their objectives.

RPA Developer

Condorgreen infotech

Feb. 2025 – Active

- Responsible for designing, developing, and maintaining automation workflows using UiPath Studio and Orchestrator. Analyze business processes to identify automation opportunities, implement efficient solutions, and monitor bots for smooth operation. Collaborate with stakeholders to gather requirements, troubleshoot issues, and ensure reliable, well-documented automation.

SKILLS

- RPA & Automation: UiPath Studio, Orchestrator, Process Analysis, Workflow Design, Bot Monitoring & Troubleshooting
- Programming & Scripting: Python, JavaScript, C#, Java, Node.js
- Web Development: HTML, CSS, WordPress
- Databases: MySQL, MongoDB
- Other: Full-Stack Development, Backend Logic, Application Design
